EDUCATION

Indian Institute of Technology (IIT), Kharagpur M.TECH Dual Degree 5Y, MANUF. SCI & ENGG.IND. ENGG.MAN., GPA: 8.69/10	Year 2026
Universal Covent Sr. Sec. School, Haldwani Class XII, CBSE, Percentage: 91.4/100	2020
Class X, CBSE, Percentage: 93.4/100	2018

INTERNSHIP

AI Intern Tally Prime • Built Multi-Agent GenAI Supervisor for Tally Prime using LangChain and Gemini, automating reporting to cut manual retrieval time by 90% • Engineered a robust XML-to-AI middleware with FastAPI , bridging ERP systems to modern dashboards with 100% parsing accuracy • Orchestrated multi-agent workflows for real-time visualization and insight generation, cutting financial decision-making latency by 75%	<i>Oct'25 - Jan'26</i>
Data Science Intern SymphonyAI • Developed document ingestion & semantic search pipeline using Milvus , enabling question answering and reducing search time by 50% • Improved retrieval accuracy by 20% through hybrid search, combining dense and sparse vector methods to enhance search responses • Implemented a sub-query-based RAG system , improving the precision and accuracy of complex multi-part question answering by 15%	<i>July'25 – Oct'25</i>
GenAI Intern DocuSign • Developed Test Case Generator agent using CrewAI , automating test case creation from Jira stories and reducing manual effort by 40% • Integrated a Google Drive agent to store generated test cases in structured Google Sheets, improving test management efficiency by 30% • Automated test cases sheet & Jira link sharing with user & QA team via an Email Notification agent , accelerating review cycles by 25%	<i>May'25-July'25</i>
Data Science Intern SigTuple • Classified microscope images (correct, blur, overlap) to create a training dataset, enabling the development of a defect detection model • Processed image data using OpenCV, including train-test splitting, resulting in error-free dataset and improving model efficiency by 10% • Applied deep learning techniques to analyze and classify images based on defect type, achieving 90% accuracy in defect identification	<i>May'24- July'24</i>
Research Intern Earthquake Prediction Prof. Balasubramanian Raman (IIT Roorkee) • Condensed seismic data from diverse sources and structured it into Excel sheets for analysis, reducing data processing time by 20% • Applied XGBoost machine learning techniques to visualize and analyze seismic data, improving data interpretation efficiency by 15% • Improved model performance by 25% in average F1 score through iterative refinement and rigorous evaluation using diverse metrics	<i>April'23- May'23</i>

PROJECTS

Loan Approval Prediction Bachelor Thesis Project Prof. Somesh Kumar • Developed a robust machine learning pipeline to predict loan approval status with a maximum accuracy of 87% achieved by Xgboost • Performed comprehensive data preprocessing, including handling missing values, null values, and encoding categorical variables • Demonstrated expertise in model evaluation using the Confusion Matrix and performance improvement, utilizing metrics like F1 score

COURSEWORK INFORMATION

Major: Computer Integrated Manufacturing | Computer-Controlled Manufacturing Machines | Operations Research | Safety and Risk Analytics | Management of Inventory Systems | Introduction to Reliability Engineering | Dynamics **Mathematics:** Linear Algebra, Numerical and Complex Analysis | Probability and Statistics | Advanced Calculus | Transform Calculus **Computer Science:** Programming and Data Structures **HSS:** Economics **Electrical:** Electrical Technologies | Basic Electronics **AI:** Machine Learning | Deep Learning

SKILLS AND EXPERTISE

Languages: C | C++ | Python | SQL | HTML | CSS, **Visualization tool:** Tableau | Power BI, **Data Structure and Algorithms**, Web Scrapping **Machine Learning:** Supervised Machine Learning, Advanced Learning Algorithms, Unsupervised Learning, Reinforcement Learning, **Deep Learning:** Neural Networks and Deep Learning, Improving Deep Neural Networks, Convolutional Neural Networks, Data Analysis **Other:** PowerPoint | Excel/Sheets, **Soft Skills:** Market Research | Analytical Research | Communication | Strategy | Adaptability | Leadership.

POSITIONS OF RESPONSIBILITY

Secretary Sports & Games Sarojini Naidu / Indra Gandhi Hall of Residence, IIT Kharagpur • Designed over 100+ posters, creatives, and jerseys for 50+ IIT Kharagpur events, increasing the event attendance by an average of 15% • Managed SN/IG Hall teams for General Championship 2023, coordinating resident participation and team training across sports • Played a vital role in securing SN/IG's first-place victory in General Championship through effective leadership, & collaborative teamwork	<i>Sep'22 – Apr'23</i>
--	------------------------

Achievements

- Honored as a selected participant in the **Amazon Summer School 2024**, showcasing exceptional talent and dedication in Machine Learning.
- Finalist, Unstop Talent Park Tech Track** Selected among top candidates after excelling in multiple competitive technical rounds.
- Selected as Millennium Fellow**, representing IIT Kharagpur in a global leadership program by United Nations Academic Impact & MCN.

EXTRA-CURRICULAR ACTIVITIES

Sports	•Received Gold in Discus Throw, Bronze medal in Shotput, and 4x100 relay in General Championship, IIT Kharagpur • Received bronze medal in Discus Throw and 4x100 relay at the Athletics Championship held in IIT Kharagpur
Welfare	• Guided and mentored 68 freshmen students in acclimating to the environment of the institute and academics
